Rotary License Plate Program— Last Chance to Meet Our Minimum

We are running out of time to meet our minimum participation deadline for the Rotary license plate program in California. **We must**

get another 2500 applications submitted by March 15, or California Rotary Clubs will lose this opportunity. Rotary License Plates would give our Club and other California Rotary Clubs continuous exposure for new members and ongoing public relations. In addition, the **funds raised from the our members' participation in the program come back to our Club**. California has been inspirational for getting this program up and running in other states and countries. So far, 17 states have contacted us. Five of those have forged ahead of us and already have their Rotary License Plates approved and on their cars! Plus, seven countries have inquired on how to get these Rotary license plates in their countries. When we submit our 7500 applications, California Rotary clubs will receive a check for about \$300,000 to help others. Don't hesitate any longer. Download an application form at www.rotary5160.org, and send it in today.
